Art. 25. To wit if the town will instruct the Park Commissioners to proceed according to law in taking land for the Water property and to report to the town for the same.

Voted to dismiss the article.

Art. 26. To wit if the town will instruct the Park Commissioners to proceed according to law in taking land for the Water property and to report to the town for the same.

The committee on the Park Commission will briefly outline.

The Forest Fire Wagon is a good one and in good condition.

Head of Forest Fire Wagon is a good one and in good condition.

How Water is a good one and in good condition.

Some parts of the Forest Fire Wagon are in good condition and some are not. The Forest Fire Wagon is a good one and in good condition.

[illegible]

This can be done by turning the pump down to ten, covering every candle with a blanket, and turning the pump down. The pressure, however, never goes down. He will have an exceptional low pressure. The change in the rate of pop is kept during the day. As the day passes, the pressure is down to perhaps 100 lbs. which will stop the working line of hose until the engine starts the pump in operation again. When engine is pumping we can get three short line on a fire but the nozzle pressure is very low at the best.

This town has many fine, well-lighted, construction buildings that in some of the world's oldest towns. The content and internal construction of these buildings make some of them particularly interesting to look at.

The J. M. Herrick Station is a combination of light mill construction with the mill power situated within a motor room adjoining it, protected by a concrete wall and to handle incinerated refuse by means of a conveyor.

These buildings are entirely covered by automatic sprinklers, which are good to have in a mall fire.

It can be plainly seen from the large fires in various places lately that a fire can get away from a sprinkler system.

We have a large three-story wood hotel, the Herman House, that would require hard work on our department in event of fire.

The Clicquot Club Co. have many hundred thousand dollars invested in brick buildings and contents amply protected by sprinkler and hydrant system. But it is possible to have a serious fire even in this class of building in event that a fire near by or inside of their own buildings should get a big start, which happens in a great many cases.

The Safepack Co., makers of paper roofing, shingles and other coated paper products from the very best material and processes employed make a very difficult risk to handle.

Their buildings are stone and wood construction, and amply protected by the sprinklers, and hydrant system, but we have already experienced a very difficult fire at one of these buildings at the time of the Crown fire.

In Millis depot section we have close together number of wood houses, perhaps the largest number of wood houses in town.

Thorne's block, Snow's hall, Burt Store block next to our fire station. The above mentioned buildings present to us a very serious fire hazard, as there is no individual or private protection inside of any of these buildings.

The space between any of these is but a few feet, and if one got a fire it would be difficult to hold it to the building in which it started.

There are numerous other large buildings about town such as Christ Church, Grange Hall, Hebrook's store, etc. that would tax our department beyond the limit as it is.

Your Committee recommends the purchase of a Triple Comb. Auto Car with 500 gallon pump and 100 gallon Chemical Tank.

This car will cut down the time required to respond to a fire, will take care of small fires with chemical attachment or if the fire is large give four lines of hose with 150 lbs. pressure each.

The Firemen have voted to give the money for them for this year, to changing over the fire house, which we believe can be done within the volunteered amount. It will be a fire house large enough for a number of years to come.

D. C. ADAMS,

M. B. LACROIX,

R. F. KING.

Voted the report be accepted.

Voted the article be laid on the table until the next town meeting, the same committee to continue until that time.

Art. 27. To see if the town will appropriate a sum of money for repairs on park at Rockville.

Voted to dismiss.

Art. 28. To see if the town will appropriate a sum of money to purchase a loading machine, or act in any manner relating thereto.

No action.

Art. 29. That the town treasurer with approval of the selectmen, be and hereby is authorized to borrow money from time to time in anticipation of the revenue of the municipal year beginning Jan. 1, 1921, to an amount not to exceed \$4,000, and to issue a note or notes therefore, payable within one year, any debts incurred under this vote to be paid from revenue of said municipal year.

Vote unanimous. That the town treasurer with the approval of the selectmen, be and hereby is authorized to borrow money from time to time in anticipation of the revenue of the municipal year beginning Jan. 1, 1921, to an amount not to exceed \$40,000, and to issue a note or notes therefore, payable within one year, any debts incurred under this vote to be paid from revenue of said municipal year.

Art. 3. To grant money appropriated in the foregoing articles.

Voted to grant \$68293.45 appropriated under the foregoing articles.

Adjourned.

## REFERENCES AND NOTES

Your Park Committee is on the ground with the proper  
Prepared presentation should be taken to the city council  
preserve the present and future generations of the  
available sites and the future of the park system  
athletic field. With a more open and  
identifying the future of the park system  
town and the future of the park system  
and open places will be lost to the  
interior. Should you agree with the  
sites against the future.

Your letter of the 10th inst. has been received and the  
lamentable accident noted. We are indebted to Mr. H. J.  
Moyne for assistance in getting the missing articles  
located.

It is the opinion of the Committee that the Government should take immediate steps to secure possession of the following tracts of land—

1. The triangle at the corner of Union and Main Streets consisting of about 1-2 acre.

2. The triangle at Rockville Corner consisting of about three acres.

3. The open field on Main Street opposite Exchange Street, consisting of about 5 acres.

4. A section of land directly in the rear of the High School lot, extending back to the Ingraham property and adjoining the open field just mentioned, consisting of approximately 15 acres.

5. Rights of way from this property to Plain and Spring Streets.

The Union and Main Street and Rockville Corner tracts are prominent and marked locations in the town, and town council will probably find them as slightly breathing spaces in the town, and being made unsightly by erection of buildings or otherwise.

Recommendations Nos. 3, 4 and 5 would provide a combined area of about 15 acres with approaches from Main, Spring and Plain Streets. In this tract is included a fine grove of pine, oak, etc., a 5 acre field suitable for athletic purposes, and opportunity to extend the High School playgrounds.

The committee recommends that these items be taken up separately, discussed and voted upon for the purpose of determining the sentiment of voters of the town.

If this sentiment is favorable we recommend an appropriation of \$200.00 to be expended in making a survey to determine the boundaries and area, including a topographical survey if the appropriation is sufficient, to be made under the direction of the Park Commissioners, with the Park Committee and a special surveyor or other committee to assist the Park Commissioners.

Respectfully submitted,

FRANK P. GOSWAMI,

D. J. MURPHY,

H. P. F. HENDON,

MR. TOLSON,

MR. P. H. FROST,

Park Committee.

Voted to accept the report of the Committee.

Voted that the present Park Committee be authorized to carry out its committee to the Park Commission.

Art. 5. To see if the town will appropriate money and authorize the Park Commission to purchase land and to acquire land and to use the land for park purposes, and to use the land for park purposes.

Voted unanimously To appropriate \$100,000 to be used by the Park Commission in preparing plans and to acquire lands suitable for park purposes.

Voted that the Park Commission report on the next annual meeting.

Art. 6. To see if the town will appropriate an additional sum of money for toilet system for Adams school house, or in any manner relating thereto.

Voted unanimously to appropriate \$75,000 to complete the toilet system at the Adams school house.

Art. 7. To grant money appropriated in the foregoing articles.

Voted to grant \$574.50 appropriated in the foregoing articles.

LOUIS LACROIX,

Town Clerk.

## FOURTH MEETING, DEC. 31, 1921

Article 1. To see if the town will appropriate money to pay bills due in the School, Poor, and Incidental Departments in excess of the appropriation, and to grant the same from the balance in the treasury.

Meeting called to order at 7:40 P. M. by G. L. Holbrook, Moderator.

No report from Warrant Committee.

Report of School, Poor, and Incidental Departments as to conditions of their finances.

Voted unanimously: That the Treasurer be authorized and instructed to pay the sum of \$1000 to the School Department, \$2000 to the Incidental Department and \$475.75 to the Poor Department from the unexpended balance in the treasury.

This report covers both Tree Warden and Elm Leaf Beetle appropriation. As the appropriation was made in that way the accounts could not be separated.

I wish also to call the property owners attention to the roadside shade tree situation and unless there is this year a substantial appropriation placed at the use of the Tree Warden's department for pruning and repair work, the trees will suffer and the town possibly lose a large number of trees. These trees are on the main highway and if they are in the town people will give the money to work with and I recommend the appropriation of the thousand five hundred dollar \$2500.00 to be for repair work and pruning and brush removal.

EDWARD L. HOWELL

---

\$13714 06

The assessments received from the property owners is used as a fund, from which one half the interest and one-half of the principal is to be paid on the town of Millis Sewer loan of \$60,000.

For that reason, this fund will be kept invested where it can be drawn as needed and earn interest at the same time.

The Treasurer by advice of the Sewer Commissioners has invested as follows:

Deposited in Medway Savings bank	11714 06
Paid-up certificates Medfield Co-operative bank	2000 00

---

\$13714 06

The appeals to the Court, made by the J. M. Herman Shoe Company, the Sate Pack Mills Company, and the Clicquot Club Company, from the special assessments made by the Sewer Commissioners and accepted by the town, are still pending. The Clicquot Club Company has recently paid the full amount of its special assessment. This has been properly invested by the Sewer Commissioners in the local banks.

# SUPERINTENDENT'S REPORT

To the School Committee of Millis:

## **School Conditions.**

School conditions indicate community conditions. Well kept buildings, efficient teachers, properly trained pupils are evidence of what the people really desire and are determined to have. All service, public or private, helps to shape the growth of the state, but that of the public schools is of prime importance since it trains those to whom is entrusted the future welfare of the nation.

Money spent for the betterment of the public schools is money spent for the betterment of each individual citizen. The results in the last analysis are what the people actually wish. School authorities may recommend appropriations but the people vote the money. The responsibility, however, is two fold. School officials must use their wisest judgment in recommending what money shall be spent; citizens must be ready and willing to properly support their own public institutions.

## **System.**

A good system or regulated ways of doing things is necessary for the proper conduct of any business. Too much system, however, defeats its own end by hindering instead of helping progress. Schools are graded to meet the needs of pupils of different ages and degrees of advancement. Discernment and good judgment are necessary, however, in dealing with individual boys and girls.\*

If certain pupils are really fitted for advancement, it is an injustice to hold them back simply to mark time with a

special grades; if others are incapable of keeping up with regular class work, they should be placed in the grade where they belong. In many cases the formation of special classes is the only true solution of such problems. Pupils should not be praised for possessing superior native abilities, nor be blamed for corresponding deficiencies. Effort and growth on the part of each individual form the true basis of estimating success.

### **Publicity**

Publicity or advertising is usually associated with the commercial world. Every business and profession, however, has its own way of advertising and the public schools are not exempt. The strongest advertisement for the school is the character and ability of the pupils. The quality of the graduates measures the standard of the institution. Teachers may reach the public in various ways. Report cards, exhibits, work sent home and talks with parents are all ways of influence for good. The responsibility, however, is not on the teachers alone. Parents can greatly help to improve the entire spirit of school work by their sympathy, appreciation and support.

## PRINCIPAL'S REPORT.

Millis, Mass., Jan. 23, 1922.

Mr. A. S. Ames, Supt. of Schools.

I beg leave to present for your consideration the following report of the Principal of the High School. In submitting this I wish first to thank you for your support during the past year.

The High School, which may admit students to the college on the New England College Entrance Certificate list has just been given the certificate privilege by Cornell University. I consider this a privilege which few High Schools of this size possess.

We now have what I believe to be the largest enrollment that this school has ever had. However, the work has gone on smoothly.

Much progress has been made in the development of a health program in the High School. Hygiene is offered in the sophomore year. Each pupil in school is expected to devote one period a week to physical training, but because we are so gymnasium that is omitted during the winter months and basketball for both boys and girls has been substituted.

In closing I wish to thank the teachers for their steadfast efforts and parents and citizens for their support and cooperation. I would also express my deep appreciation of the harmonious relations that have characterized the work of the School Committee. In these times it is rare to find such uniform consideration and courtesy and such cordial cooperation and harmonizing of differences in view points.

Respectfully submitted,

WINTHROP M. JOHNSON.

## REPORT OF TEACHER OF MUSIC AND DRAWING.

Millis, Mass., Jan. 1, 1922

Mr. Albert S. Ames, Superintendent

Millis, Mass.

Dear Mr. Ames:

I herewith submit my third annual report. The courses in drawing and music are being continued according to the plans which has been followed during the past two years.

This year for the first time, graduation credit is offered to those students who successfully complete the High School music course. The High School music periods are used for assembly singing and in preparing a June graduation program. In addition to the regular work, a concert was given in Grange Hall, April 7, 1921.

The drawing periods in the primary and intermediate grades are used for construction work, simple drawings and projects. In advanced grades the problems become more difficult. Various types of work are done with crayon, brush, pen or pencil. The ultimate goal sought is the attainment of and appreciation of that which is practical and beautiful.

For the continued co-operation of the school executives, teachers and pupils I am grateful.

Respectfully yours,

ELIZABETH GRIFFIN

**Millis High School Song**

Gray is the peaceful night,  
 Day's closing brings it nigh,  
 Crimson which streaks the sky  
 In radiant light;—  
 Those are our colors dear,  
 Though we in number few,  
 To then we will be true,  
 When far or near.

Each year we work and strive,  
 To keep our ideals high,  
 High as the distant sky  
 Each one alive:—  
 Memories of happy hours,  
 Millis—thou school of ours  
 Hear this our welcome lay—  
 Crimson and Gray.

—Words by Ruth Richardson, 1920.
